SUPPLEMENTAL PETITION TO CORRECT FILING RECEIPT

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

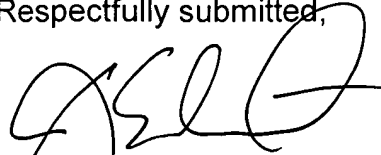

Applicant regrets and apologizes for the confusion regarding the filing date of the above application—U.S. Serial No. 10/730,805. Upon further review of circumstances surrounding the filing of this application, the present Supplemental Petition seeks to finally correct and establish the application filing date of December 9, 2003.

Applicant's prior petitions incorrectly assert a filing date of December 8, 2003—the date the application was placed in a remote Express Mail drop box. Before placing the application in the drop box, Applicant typed this date in the *Date In* box of the Express Mail Label No. ER 419456513 US (Exhibit A). Certain evidence indicates that the application package was not actually processed and marked as received by the United States Postal Service until the next day; December 9, 2003. Specifically, Applicant notes the handwritten "9" superimposed over the typed "8" appearing in the *Date In* box of the Express Mail Label; a correction presumably made by an employee of the USPS. In light of this and upon reviewing the requirements of 37 C.F.R. §1.10, Applicant respectfully submits that the filing date of December 9, 2003 appearing on the original filing receipt (Exhibit B) is correct and should be maintained. Applicant requests that any fees charged in connection with this petition be waived.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, PO Box 1450, Alexandria, VA 22313-1450 on October 18, 2005.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
